### **COMMERCIAL AND OTHER CONNECTIONS:**

Initial computation of capacity charges will be based upon plumbing plans and riser diagrams using the fixture unit chart and the capacity adjustment factors as listed in the [Water and Sewer Rules and Regulations](#). These charges are payable prior to the issuance of the building or plumbing permits. Prior to the approval of the Use and Occupancy Permit, a field inspection will verify actual installation and the capacity charges will be adjusted if changes from the plans occurred. The owner shall be responsible for payment of additional connection charges when a site visit reveals fixtures installed above those previously approved and paid for.

Sewer Connection Charges: \$691.20 per fixture unit based on the Fixture Unit Chart and the Capacity Adjustment Factor Chart

Water Connection Charges: \$495.30 per fixture unit based upon the Fixture Unit Chart and the Capacity Adjustment Factor Chart plus the meter and drop-in costs.
